LOWEST PRICE REACHED SINCE
1917—THE MARKET IS
FLOODED

(By United Press)
Chicago, Nov. 19.—Hogs slumped again today making the livestock exchange of the country record the lowest level since 1917.

Cleveland reported the biggest drop. The market fell off sixty-one cents at the opening. Declines of fifty cents were recorded at Indianapolis and Chicago. At Kansas City the prices ranging from \$11 to \$11.65 were the lowest for the last four years. The drop, according to traders, was due to flooding of the market.

Hog receipts here today total 27,000. Left-overs from yesterday were more than 15,000.

HARDINGS ARE EN- ROUTE TO PANAMA

THE SENATOR TRIED TO SETTLE
DOWN TO DOING NOTHING, BUT
FOUND IT DIFFICULT

(United Press Staff Correspondent)
Aboard the Steamship Parisienne Nov. 19.—Senator Harding, enroute to the canal zone for a vacation trip, tried to settle down to the task of doing nothing, but found it difficult. The wire news reports which came here were scanned for word of what has occurred in the United States and elsewhere since the Parisienne left land last night and started plowing across the blue waters of the Gulf of Mexico. Harding strolled on the deck until late last night.

A live turkey was one of the centers of attraction. The crowd viewed the bird, put on board for the Hardings. One hundred ducks were also put aboard just before sailing. They are for the benefit of the Harding larder. While at sea Harding will get out one or two souvenir editions of the Marion Star. There is a typesetting outfit on board and the plans are for Harding to do the whole job himself.

POLES FEAR RU- SIANS WILL BREAK OFF PEACE PARLEYS

(By United Press)
Warsaw, Nov. 19.—Polish officials today expressed a fear that the Russian government will find an excuse for breaking off permanent peace negotiations at Riga.

Soviet successes in the Crimea they fear, would convince Russia they can regain territory lost in the armistice agreement.

The permanent peace negotiations began Wednesday at Riga with the commissioners in most friendly mood.

L. C. MARTIN,
(United Press Staff Correspondent)
Washington, Nov. 19.—The town of Balbuggan, Ireland, was virtually destroyed by British police and one of their number was shot and killed in a barroom brawl, John Deerham, an officer of the town, testified before the unofficial American commission investigating Irish affairs today.

The town was burned, two of its citizens bayoneted to death in the highway, and others beaten, Deerham declared. He was the first witness of two days of inquiry being conducted by the commission which was formed by O. G. Villard of the New York magazine, "Nation."

Deerham's home and public house were wrecked by the black and tans, and then burned to the ground. He was beaten, kicked and cursed and threatened with death, he testified, while a prisoner of the black and tan.

Less Strikes and Lockouts Since Armistice

(By United Press)
Washington, Nov. 19.—The labor department, by bringing employers and workers together, is helping to make the possibility of industrial disturbances less remote, according to Edward Cunningham, industrial relation expert of that department, in an interview today.

"Despite many predictions that industrial warfare are about to break out, there are now less strikes and lockouts throughout the country than at any time since the armistice," Cunningham said.

GRAIN PRICES GO DOWN 7½ CENTS

(By United Press)
Chicago, Nov. 19.—Grain prices broke sharply on the Chicago board of trade today by the influence of the stock and cotton markets. Heavy selling forced December wheat down seven and one-half cents below the low opening. March wheat and corn futures were also off. A dull oat market influenced by weakening in other grain caused a drop of 2 cents.

St. Paul, Nov. 19.—The biggest gathering of the Minnesota home coming week will be tonight when "old grads" get together for a banquet and jubilee.

Tomorrow the Minnesota football team goes against Michigan in the Northrup field, hoping to win one conference game before the season ends.

The Gophers lost a place in the conference standing while Michigan has won one and lost two games.

GERMANY WILL SEEK TO RECOVER LOST COLONIES

NOTIFIES LEAGUE OF NATIONS
SHE NO LONGER CONSIDERS
HERSELF BOUND BY TREATY

(United Press)
Geneva, Nov. 19.—Germany today notified the league of nations that she will no longer consider herself bound by the clause under which she surrendered her colonies.

The appeal protested against the establishing of mandates of former German colonies. It declared the allies had not abided by the treaty which provides that mandates of former German colonies were to be distributed by the league.

Germany said she signed the peace treaty and league covenant with the expectation of being admitted and thus permitted to participate in distribution of mandates of her colonies.

Since she has not been admitted to membership, and so a party to distribution of mandates, the appeal said, she therefore considers herself no longer bound by the treaty clause effecting her colonies.

STEEL TRUST TO CONTINUE PRESENT PRICES

(By United Press)
New York, Nov. 19.—The United States Steel Corporation has decided to recommend to presidents of its subsidiary companies that the present basic selling price of all commodities continue in force until it is necessary to make changes to meet alternative conditions, Chairman E. H. Gary said in a statement today.

In a formal statement Gary declared since the big selling price of iron and steel was fixed by representatives of the steel industry and the government in March, 1919, the production cost has increased and that under usual circumstances we would be justified in making additions to the average base prices.

No changes in price will be made at this time, however, Gary said.

WILSON GREETINGS READ TO LEAGUE

DEBATE CONTINUED ON REPORTS
TO THE ASSEMBLY—MESSAGE
GREETED WITH APPLAUSE

HENRY WOOD,
(United Press Staff Correspondent)
Geneva, Nov. 19.—President Wilson's greetings to the league of nations assembly were read at the opening session today. The president's assurance of his belief that the league will accomplish great good for the world was greeted with loud applause.

Debate will continue today on various reports to the assembly. J. N. Berns of Great Britain, declared Dr. Nansen had showed the league was far from dead when he reported on the repatriation of prisoners of war.

Berns also made an appeal for Armenia, and attributed the council's failure to serve that country only because of lack of means.

Preparations for the dispatching of troops to Vilna to supervise the Polish-Lithuanian plebiscite in that city went on today. British, French, Spanish and Belgian soldiers were put at the disposal of the league.

BANDITS OBTAIN \$100,- 000 WORTH OF LOOT

(United Press)
Omaha, Neb., Nov. 19.—Loot obtained by bandits who plundered mail cars of the Chicago-Rock Island passenger train yesterday between Des Moines and Omaha, amounted to \$100,000, according to unofficial estimates today.

The robbery, the second in the last two weeks in this vicinity, has aroused federal investigators and they were running down every clue in an effort to trap the robbers.

Three men were arrested today in connection with the robbery Sunday night on a Burlington train of ten registered mail pouches at Council Bluffs, Iowa.

(United Press)
St. Paul, Nov. 19.—"Big Chris" Dowling who escaped from the Ramsey county jail in a sensational break two months ago after shooting the jailer, will be brought back tonight from Hurley, Wisconsin, where he was found yesterday. NO SNOW IN WOODS, HUNTERS GET FEW DEER

(By United Press)
St. Paul, Nov. 19.—Hunters in northern wilds today were wishing for some of the snow that has blanketed deep other parts of the country.

They are shooting few deer because they cannot find them, according to reports to the state game and fish commission. Continued warm weather has discouraged many hunters.

MINNESOTA FARM BUREAU FEDERATION MEETING TODAY

REPRESENTS MORE THAN 50,000
FARMERS OF STATE—FAR-
MERS PROBLEMS UP

(By United Press)
St. Paul, Nov. 19.—To help producers get all they can out of marketing their produce was the aim of six hundred delegates to the Minnesota Farm Bureau Federation convention here today. Executive of the federation outlined a program yesterday that was to be presented to the delegates today.

The federation represents more than fifty thousand farmers of the state. Their program is expected to be made the basis of a national farm bureau federation program when that body meets in Indianapolis early in December.

President Potter opened today's session with his annual address in which he outlined what he believes could be done to help farmers market their produce at the very best advantage. J. A. O. Preus, governor-elect, was to speak on co-operation. He is opposed to farmers doing their business in a way not related to producers and believes in co-operative marketing rather than ownership or distributing agencies.

"Minnesota farmers will have no banner crops until they receive a higher price for their commodities," according to President L. E. Potter.

"It is not necessary to advise farmers to hold their crops and curtail further future production. They will be forced to take steps to protect themselves against low markets," Potter told the convention.

"When the supply of commodities exceeds the demand, it will become necessary to curtail production."

"This is not a farmers strike, and it should not antagonize the public against the farmer," he said.

J. A. O. Preus told the convention he again pledged himself to the kind of legislation the farmer desires.

BRINDELL INDICTED ON BRIBE CHARGES

HIGHEST PAID LABOR LEADER IN
U. S. GOT MILLION GRAFT,
COURT IS TOLD

New York, Nov. 19.—The joint legislative committee's investigation into the "building trust" resulted in the indictment of Robert P. Brindell, president of the Building Trades council—one of the highest paid labor leaders in the United States—on charges of attempting to extort money from the contractors by threats of calling strikes.

Collective extortion charges against Brindell, Special Assistant District Attorney Richter, declared in appealing to the court to place the labor leader under heavy bail, will aggregate \$1,000,000.

In the indictment Brindell was charged specifically with attempting to extort \$7,500 from Jacob Frados, a house wrecker, by threatening to call a strike on a demolition job unless the money was paid him.

In absolute control of the building trades council with its membership of 115,000 union workers, Brindell has been regarded as one of the most powerful factors in organized labor in New York. He holds a life contract as business agent of the Dock Builders' union, which has a membership of approximately 4,800, each member of which contributes 50 cents a month out of his dues to Brindell's salary, which from this one union alone is estimated at approximately \$30,000 a year.

CONSTANTINE TO GO TO ATHENS

TO RE-ASSUME THE POSITION OF
GREEK KING—SAYS ALLIES
CAN'T PREVENT HIM

(By United Press)
London, Nov. 19.—King Constantine today was reported to be preparing to leave Lucerne for Athens, it having been confidentially reported that the queen's mother, Olga, had been appointed regent.

Constantine was said to be convinced nothing could stand in the way of his resumption of the throne in view of the election. The allies cannot prevent him nor his son from becoming ruler of the country. Crown Prince Carol, of Rumania, joined the Greek royal family today. It was expected that announcement of his betrothal to Princess Helen of Greece would be announced soon.

LABOR PARTY POLLED ONE MILLION VOTES

(United Press)
Chicago, Nov. 18.—The farmer-labor party polled more than one million votes for its presidential ticket, according to tabulation completed today and announced by Frank J. Espeers, secretary of the national party.

"The farmer-labor party is now the third party having polled a larger vote than the socialists," said Espeers.

"Our ticket was placed before the voters in only nineteen states owing to conditions. Had the farmer-labor ticket been placed on the ballot in every state, more than two million votes would have been cast. We are elated over the result of the election. Our party is here to stay."

WHOLESALE FOOD PRICES DROPPED 8 1-2 PER CENT

AND PRICES TO FARMERS DROP-
PED CONSIDERABLE
MORE

(By United Press)
Washington, Nov. 18.—Wholesale food prices during October dropped eight and one-half per cent and prices received by farmers dropped a still greater percentage, according to figures given out by the agricultural department. This shows that the full effect of the price drop is slow in reaching consumers.

Prices declined in thirty out of forty-three food articles listed. Sugar decreased twenty-four per cent; potatoes, fifteen per cent; onions, eleven per cent; rice, nine per cent; steak and meat, four per cent, and miscellaneous from three to one per cent.

Prices increased were eggs, fourteen per cent; lard, five per cent; bacon, butter and other articles increased less than one-half of one per cent.

The greatest decrease in living costs was shown in Omaha and St. Paul of six per cent. A decrease of five per cent was shown in Portland, Seattle and Milwaukee and Minneapolis.

South St. Paul, Nov. 19.—Hogs had a new low market of \$10.50 per hundredweight here today—down fifty cents from yesterday and half the price at the peak after the war.

PRICE REDUCTION BRINGS COMPETITION

ONLY FITTEST WILL SURVIVE
THE PERIOD OF READ-
JUSTMENT

(United Press)
Chicago, Nov. 19.—"Reduction in prices has increased competition to such an extent that only the fittest will survive the period of readjustment through which the business of the country is now passing," Joseph C. Simpson, vice-president of the Marshall-Field & Co., the largest dry-goods, whole and retail company in the country, told the United Press today.

"Every progressive business is stripped for action," said Simpson. "Every source of ability, efficiency and resource will be put to the test."

Simpson said that during the war standard of service in business suffered, but that now the country will resume the course of normalcy.

Simpson attributed the present readjustment to the immutable law of supply and demand, and expressed the belief that the action of the federal reserve banks by controlling credit, had very little to do with it.

SIMPLEST THINGS

You knew the simplest things have been the longest awaiting discovery. Merzenthals had his wonderful typesetting machine perfected for several years—all but the simplest thing about it. And that simple little thing was the "spaceband" that separated the words. But it was the hardest thing to get. The phonograph is so simple that the first time you saw one you felt like going out behind the woodshed and kicking yourself because you did not invent it. For a century men carried coal and wood to

burn under boilers to make steam to generate power. Along came a man who discovered the simple expedient of exploding gasoline in a cylinder and hitching the recoil to the machinery. And a few years ago Dr. Palmer, of Davenport, discovered the spine is the keyboard to health, and he and others have perfected the theory of spinal adjustments until now it is a DEMONSTRATED FACT that the cause of disease is in the spine, and Chiropractic Vertebral adjustments eliminate this cause in the majority of human afflictions.

GREAT SOCIETY EVENT "THE COURT OF KING COLE"

The Big Cast of 100 People Are Being Rapidly Brought into Line

When the curtain rolls up on this local production, theatre goers will be surprised to see as beautifully costumed a show as any of the professional productions which are seen here during the theatrical season; from start to finish, it will equal the full fledged professional show.

Mrs. Harriet Purdy Smith, under whose eagle eye the work is progressing, realizes what is wanted by the organization for whom she is working, as well as the patrons who pay their money to see a good show and the result of her efforts will be an able cast from start to finish.

The two Humpty Dumplings, comedians of the piece will be taken by Messrs. Willard Giles and Desmond Hurley.

Mr. A. C. Mraz plays first juvenile male lead (that of Jack of the Beanstalk fame).

Mr. Eugene White has been selected for the King and with his addlers three will play no small part under the limelight.

Mr. Abner Swanson for Sinbad the Sailor, and Mr. Rudolph C. Johnson and Miss Dorothy Carmichael for Jack and Jill. One of the prettiest roles in the piece, that of "Mistress Mary" will be sung by Miss Norma Brady whose sweet contralto voice will give a setting to the part, which, aided by Miss Brady's natural dramatic ability will make the character of "Mistress Mary" one of the sweetest in the piece. Little "Bo Peep" and Senora falls in the hands of Miss Delilah Koop and Mrs. Kreckelberg, two very capable sopranos. Senora Mora by Mr. Harry Butler, the Indian Chief and Princess by Mr.

Rolland Jenkins and Miss Irene Quinn. The minstrel man by Mr. Lafayette E. Henricks. The society stunt "The Girl from Sherry's" is in the hands of Mr. Eugene White and Miss Delilah Koop.

One of the musical hits will be a beautiful Indian camp fire scene in which will appear Indian braves and maidens in their native costumes.

The way the songs have been arranged is a treat. Many of them have been localized by some local laureate so as to bring out all the events of interest in the district, and every other arrangement has been made to make the play a general success.

Armstrong-Benson

Miss Sigrid Armstrong, daughter of Mr. and Mrs. Armstrong of South Long Lake, was married Thursday afternoon at 3 o'clock to Arthur S. Benson at the home of her parents, Rev. M. L. Hoefinger officiating and using the Lutheran ring service.

Instead of playing a wedding march, two girl friends of the bride the Misses Georgia Sherlund and Eliza Peterson sang "When Song is Sweet".

The bride was radiant in a gown of white satin and bridal veil and carried a bouquet of white chrysanthemums. She was attended by her sister, Miss Olga Armstrong, who was gown in blue crepe de chine and carried a bouquet of chrysanthemums. The best man was Ernest Armstrong, a brother of the bride.

There were 50 guests at the wedding and they partook of a bountiful supper. The happy couple received many pretty and valuable presents. The bride received a framed picture from her parents, and when she opened it she found within five \$20 bills attached.

Mr. and Mrs. Benson will make their home in Minneapolis where he is engaged in business.

"WAS OUR PATRIOTISM MERELY A PEACE-TIME HABIT"

Does it take the sound of marching feet and the roll of drums to awaken in us the patriotic fervor we profess to have in our hearts? Is there not in us the desire to do something worth while for the suffering at all times? Surely it is so—and the greatest problem of the day is combating disease. The Red Cross has finished her role of temporary relief and cheer and now has turned her excellent and systematic machine to be used for big disasters such as floods, fires, and epidemics, not forgetting the unfortunate of the war-stricken countries. This is a reminder dear readers, that Patriotism should not be a war-time emotion, but a peace-time habit. Renew your Red Cross membership today.

KNUTSON'S LONG LEAD IN SIXTH

St. Cloud Congressman Had Majority of 26,367 Over C. A. Lindbergh

(St. Cloud Journal Press)
Harold Knutson carried every county in this congressional district, and piled up a majority of 26,367 over C. A. Lindbergh. He was as much surprised as anybody over the verdict of the voters. He entered the campaign with the idea that his opponent would prove a strong vote getter, and a few days before the voting, while confident of his election, did not expect more than 5,000 majority at the outside. He expected to be second in Aitkin, Crow Wing, Morrison, with Wadena and Todd close.

One great element of his strength was the almost solid backing of the 8,000 service men in the district, and the support of every republican and democratic newspaper in the district, which is a combination hard to beat. Here is the vote:

Sixth District		
	Knutson	Lindbergh
Aitkin	2,614	1,508
Beltrami	5,016	2,601
Benton	3,954	919
Cass	3,167	1,412
Crow Wing	4,718	2,367
Hubbard	2,296	906
Morrison	4,957	2,244
Sherburne	2,673	548
Stearns	11,818	4,136
Todd	5,327	3,297
Wadena	2,494	1,239
Totals	47,954	21,587
Knutson's majority		26,367

The district, which was carried by Shipstead in the June primaries, redeemed itself in the election, giving Preus a plurality of 13,826 over Shipstead. Preus' total vote was 40,163. Shipstead 23,301. Hodgson 5,608. Shipstead received nearly 5,000 more votes than did Lindbergh. Knutson evidently received all the democratic votes and nearly 5,000 nonpartisan votes.

Good for Him and His Wife
Hurley L. Watkins, 2308 Lytle St., Louisville, Ky., writes: "I found Foley's Honey and Tar just what I wanted for my wife's and my colds." Checks coughs, colds, croup, bronchial coughs; stops that "tickling" throat that keeps one coughing at night. Contains no opiates nor habit forming drugs. H. P. Dunn, druggist.

Oil Creaking Shoes.
Have you a pair of shoes that take creaking spells much too frequently for your comfort and pleasure? If you have, simply put a small quantity of linseed oil in a shallow dish or pan and stand the shoe in it for a few hours. This treatment will not only effectually prevent the shoes from creaking in their creaking ways, but it will also make the soles last longer.

She Says It Can't Be Beat
Deep seated coughs that get hold of one in Autumn should be stopped now or they may continue all winter. Mrs. Wm. F. Davis, R. F. D. 1, Short Creek, W. Va., writes: "Foley's Honey and Tar can't be beat for colds." It checks coughs and bronchial irritation, heals raw, inflamed throat, loosens phlegm. H. P. Dunn, druggist.

MANY AT FUNERAL

Two Ministers, Rev. Fred Errington and Rev. C. N. Sinnett at John A. Cochran Funeral

A large group of friends and neighbors and relatives attended the funeral of John A. Cochran held on Thursday afternoon at the family residence, 524 North Fourth street. Rev. Fred Errington, pastor of the First Congregational church conducted the services and Rev. Charles N. Sinnett, pastor of the Peoples Congregational church, gave the prayer and read a memorial poem as follows:

In Memory of John A. Cochran
My Faithful Friend from Maine
He was born and reared on the coast
Of a State where none need to boast,
For were'er flies our flag without stain
Are the sons and daughters of Maine.

O'er the seas John's ancestors came
Bearing an unsullied name,
Kind hearted, and true as steel,
To a tyrant none ever did kneel.

They sought not the meadow or hill,
But Calais, the name with a thrill,
On the rugged coast line brown
Where the tides surge up and down.

Their farms from the forest they cleared,
Their ships to far havens they steered,
Their mills mocked the river's wild din,
For such blood never grows thin.

And some of the strongest and best
Heard the clear call of the West;
In far States their cheer and help shines,
Strength of the sea, and vigor of the pines.

In such strength he came to our town,
"For a while—till the leaves turned brown,"
And then he would smile and say,
"But I found it a good place to stay."

And with one of the true Carey Line
He has lived here through shade and shine,
Hailed at noontime, evening, and dawn,
By that good old home name, JOHN.

But, though ready to help all here,
The memories of youth were dear,
And, loving his loved and own,
He forgot not the sea's clear tone.

And, at his glad morning halts,
I saw the shore, and the sails
Of ships that sped towards the sun—
And I knew where his thoughts did run.

Once when I spoke how my mother had gone
Just in the way that he passed on,
With never long, suffering day, or night,
His kind look said, "God's ways are right."

And I like to think he heard the sea
When he passed for a while from you and me,
And the mother's love as in days ago,
"So glad to see you, John, MY JOHN!"

SENIOR BASKETBALL TEAM

Clarence Sheffo Is Elected Captain at First Turn Out of the Team

The Senior class of the local high had their first turnout for inter-class basketball up in the gym Wednesday night after school. The prospects are bright for keeping the pennant which they won last year as Juniors from the class of 1920. The most opposition will arise with the Juniors who claim to have a fast bunch, and hard-fought games are expected between these two classes. Next in line come the Freshmen who also have a strong team. The Sophomores seem somewhat weak, and only practice will develop a stronger team.

Clarence Sheffo was elected captain of the Senior team with Abner Swanson, manager. Under Opdahl, a new man at the school, seven men turned out Wednesday night. Sheffo, Swanson, Hendrickson, Thoe, Erickson, Carjala and Lagerquist. Sheffo and Erickson will probably be given the forward positions with Hendrickson and Thoe guards. Lagerquist will probably hold down center. Sheffo is a second team man of 1918 and played first team in 1919 and 1920. Thoe and Hendrickson are also first team letter men of last year. Thoe also played second team in 1919. Swanson and Erickson are second team men of last year. With these men, the Senior class of 1921 will enter the field of inter-class basketball. The schedule of games has not yet been arranged but will most likely begin within two or three weeks.

NUTRITION CLINICS

(N. O. Pearce, M. D., Pediatric Department, University of Minnesota, Medical School, Secretary Northwestern Pediatric Society).

The nutritional clinic grew out of the national campaign for prevention of the high percentage of malnutrition now existing among the school children. The name itself is somewhat of a misnomer, as these clinics are designed very much along the same lines as the infant welfare clinics, only they are for children of school age exclusively. The demand for these clinics have come

largely from the nurses who are working in the rural schools.

Up to August first, there have been conducted some fifty nutritional clinics, at which over 2,000 children have been examined. When a request for a nutritional clinic comes to headquarters, the nurse is requested first to weigh and measure all the children in her school, singling out for the examination those who are abnormally underweight for height, or who have some obvious physical defect. Usually these clinics are conducted in the public school building, and the children are sent in from their classes as desired with little interference with their regular school work. The unique feature of these clinics has been that an expert in nutrition from the Agricultural Extension Division of the University of Minnesota has accompanied the physician, and advised the children and their parents regarding their eating, sleeping, and other health habits.

Among the interesting facts that have been brought out at these clinics are that the use of coffee among school children is very general, and whenever this is true there is a general tendency to underfeeding. When the children have to rise early in order to meet a school bus or walk a long distance to school, they are apt to take an inadequate breakfast.

These children are reported by the teachers as becoming very tired and restless before noon. Surprising as it may seem, the children in the rural districts drink less milk than those in the cities, this being largely because of the inadequate facilities for distribution in the small towns, and in many districts the supply is insufficient.

The only vegetable in general use is the potato. The other essential vegetables are used inadequately in many cases, because the child has never been trained to eat them. In other cases, the supply gives out before the winter is over. Cereals are in general use, but they are apt to be uncooked, rather than the more valuable oatmeal, cream of wheat, etc. The hot school lunches for these children who cannot return home at noon are proving of immense value, and are rapidly being supplied throughout the state.

The prevalence of malnutrition among the rural school children is relatively high, we believe higher than it is among children of the city schools.

During the afternoon in district court before Judge W. S. McClenahan, the case of Catherine Undraitis as administrator of the estate of Joseph Undraitis, deceased, vs. the City of Brainerd, went to the jury. She claims \$7,500 damages because of the death of her husband, alleging he was electrocuted by coming into contact with a charged guy line and charged the city with negligence.

Other witnesses testifying were Dr. Earl F. Jamieson, called shortly after the accident; Wm. Nelson, former secretary of the water and light board and now located in Long Prairie; the undertaker who took charge of the corpse.

In the case of the state vs Harry Stearns, entered on the calendar as No. 18, an order of dismissal was entered on motion of the county attorney, because of want of prosecution by the complaining witness.

LOUIS HAGE, ARCHITECT

Announces the Opening of Architectural Offices and Studio in Citizens State Bank Block

Louis Hage, architect, announces the opening of architectural offices and studio, in the Citizens State Bank building. Mr. Hage comes to Brainerd from Grand Forks, North Dakota, where he has been associated with one of the leading architects in that state.

Mr. Hage is a graduate of one of Chicago's schools of architecture and architectural engineering, and has for the last ten years, with the exception of about one year in the U. S. Army, been associated with different architects in Illinois, Wisconsin, Minnesota and North Dakota, in various periods of time.

After the signing of the armistice now two years ago, Mr. Hage was very fortunate in being stationed near French cities noted for their famous architecture and while waiting for orders to sail back to the states, which did not come until four months later, he found splendid opportunities to enter into a detailed study of old cathedrals and chateaux, for which France is noted.

Mr. Hage is interested in small and large architectural work, and is a strong advocate of fireproof construction.

—to Recognize Economy

We emphasize the prices because they are figures that a good many men like to pay for clothes. But what is of more importance to emphasize is the remarkable quality you get here at those prices. It's no chance shot. It's not a piece of luck. It's the result of strenuous effort and the exercise of every atom of our value resources that makes it possible for us to deliver such splendid fabrics and styles and such service giving tailoring in these suits.

We've assembled a great variety of them. Styles for men and young men. Single and double breasted models and a wonderfully varied lot of fabric weaves, patterns, colors and models in all regular and extra sizes. If you are keen for big values here they are at
\$37.50, \$47.50, \$57.50

Young Men!

When the young man starts out in his career, there is nothing more essential than a good banking connection—unless it be ability, stick-to-it-tiveness and a capacity for hard work.

With these essentials backed by the counsel and advice of experienced bank officers, young men today are progressing faster than ever before.

Make this bank your bank, young man, and you will have as your business partners men who like yourself are progressive, alive and looking forward to the development of bigger things for Brainerd and the surrounding community.

Railroad Man Gives Good Advice

"Several years ago I was under treatment of a stomach specialist for 5 months, 3 weeks of which were spent in a hospital. Another stomach specialist told me I had gall stones and that an operation was necessary. I did not want to have this. I lost 45 lbs. in weight. Talking with a brakeman one day he told me of Mayr's Wonderful Remedy and since taking it I have gained 16 lbs. and am feeling fine. I am advising others to try it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. Great Baby Shrinkage.

Doctor Johnson's dictum that "births at all times bear the same proportion to the same number of people" looks rather like a wide shot in the presence of a row of figures just published by the Cambridge University Press. These figures occur in the report of a paper read by Mr. G. Uday Yule, M. A., at the university, and they show that in England and Wales the annual birth rate per thousand has been halved in the last 40 years. In the light of this comparison the present baby boom in London leaves us still far behind our grandfathers in the art of stretching the population. In the world-competition for posterity Serbia stands first and Australia last, with England last but one.—Montreal Herald.

The Average Hair Crop.

The Bible tells us that the hairs of our head are numbered, but it does not tell us even the approximate number to a square inch. But some one has figured this out for us. He counted the hairs in a square inch on many heads. On the average head there are a thousand hairs to each square inch. Find out the number of square inches in your scalp and you will soon know the approximate number of hairs on it. We are also told that four hairs will suspend a one-pound weight. Therefore an average head of hair should be able to support the combined weight of two hundred people. Don't try it.—Popular Science Monthly.

SALT LAKE ROUTE

THERE is a big difference between Calumet and all other Baking Powders.

First—you see it in the cost. Calumet is sold at a moderate price.

Then—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required.

Next—you notice it in raising quality—in the evenness—lightness and texture of your bakings. They look better—finer grained.

"S-o-m-e Biscuit!"

CALUMET BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit

Recipe
4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounding tablespoons of butter or lard, ½ cup of milk, ¾ cup of water. Then mix in the regular way.
